Tips for Success

Read the entire text

Also be familiar with what is in the chapters, tables, and appendices.

Complete the study guide

It is a great way to practice locating content in the text.

Allow two full hours to complete the exam.

You cannot go in and out of the exam.

Do not complete the exam at work.

Find a quiet place where you can take it uninterrupted.

Take the exam shortly after completing the course

Do not wait until the last day. You have 7 days for both attempts.

If you do not pass the first attempt, do not retest immediately

Take day or so to review content and then retest.

Look at the Remediation Report for the items missed.

There is a question bank. You may or may not see that same question on the retest.

Use the book on the exam.

The provider manual provides everything you need to be successful.

The exam must be completed as an individual, not as a group effort.

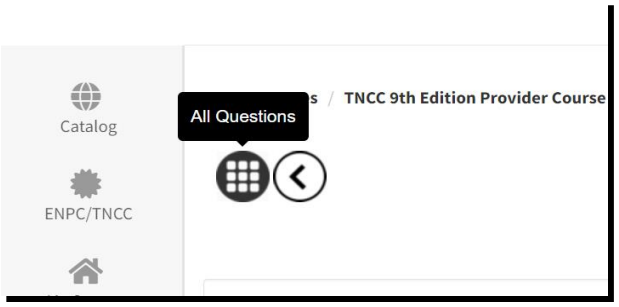

Cheating in any form, including the sharing of exam content, is not tolerated.

Feedback

Leave feedback on questions for item writing experts. Please complete all exam questions first, prior to leaving comments, to ensure you do not run out of time. Because questions are part of an active exam, learners will not receive a response to comments. All comments are reviewed and utilized for quality improvement.
